Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

I wish to acknowledge receipt of your culture H-326 of E. coli K-12 diploid. We have finished some preliminary experiments with this organism and find its radiation survival response to be what we would expect from a diploid. The segregating characteristics of this organism makes it very interesting to study. Our cytological study of the strain shows some promise, and if we obtain any interesting pictures, I will send you prints. Many thanks for your consideration in sending us this culture.

Very truly yours,

A handwritten signature in cursive script, reading "JB Clark".
